

are not that long but, many of them are reasonably long. So I would like to make a, not a motion, but a suggestion unless somebody objects. That the clerk use his capabilities as he has many to, read as rapidly as he can and as low as he can. So we can follow what he is saying, and I'd also like to have the chair if you would be tolerant that because of the length if we can move around without being being obnoxious or objectional, why would you do that?

PRESIDENT: Fine, the chair will, how would you say this, the chair will observe the rules with some laxity this morning in regards to the reading at least of this first bill, but after that if the others are short, I really don't appreciate you when you disappear off in the wings and come back in and I have to be sort of aware of what your coming back to vote or not and so maybe with your cooperation after this first bill, fine. I know that most of you comply generally with the rules and I appreciate that very much. I generally try to call you on the phone or get the sargent at arms to get you if I figure somebody is getting to far out of line, you know the rules of the legislature as well as I do. Senator Stahmer, for what purpose do you rise?

SENATOR STAHMER: Just a brief point of personal privilege. I'm going to have passed out to you some information on drug abuse and I think it will be very informative and you can pursue it while you are killing time on 45, while we are reading these 180 pages. It doesn't cost any money and it is, I think it is very enlightening and would perhaps be some method for cutting down on the drug problem in Nebraska. So I'll have that distributed for your information.

CLERK: Mr. President, a motion on the desk.

PRESIDENT: Read the motion on the desk.

CLERK: I move that LB 312 be passed on out withstanding the objection of the Governor, signed L. Schmit.

PRESIDENT: Well, Senator Proud.

SENATOR PROUD: Mr. President, an announcement. Mr. Brauer, came to me last night and had some envelopes to deliver and we pretty well made a rule here as I understand it that something brought here can be delivered. I authorized the delivery of speaker and not as a personal matter.

PRESIDENT: Senator Schmit.

SENATOR SCHMIT: Mr. President, members of the legislature, I'd like to ask the body at this time, to over ride the Governor's veto of LB 312. I do so because I feel as I have said before that the bill has been debated adequately and properly and that the bill perhaps more than most pieces of legislation is thoroughly understood by the members of this body. I recognize that there are strong feelings both pro and con, but I concur with the individuals who have asked me to introduce the bill that is the necessary step in progressive and sound banking. To comment on the Governor's message, I would like to say, that I do appreciate the fact that the Governor gave us the opportunity to recall the bill in order that we might compromise or provide another amendment which would be perhaps satisfactory to the few people who are now satisfied with the present bill. I want to say that I choose not to recall the bill because on the floor of this body, I offered time after time to compromise. I accepted amendments to the bill, I accepted ideas from constituents and bankers and I tried to incorporate that into the original bill. I think the bill as passed by the legislature and advanced to the Governor is a good bill. It treats everyone alike, large and small banks, large and small communities and I see no reason
